

# Don't Gamble on Your Future, No Voice is like a Crap Shoot!

The current collective bargaining agreement expires in less than one year. It's not too late, join now and get involved. There is much work to be done.

Your negotiating committee is already working hard preparing for the upcoming contract negotiations. The surveys are being planned so the membership can prioritize their ideas. Once the surveys are returned the committee will begin preparing proposals based on the results on the surveys.

We will be asking members to get involved in subcommittees for negotiations as well as volunteering for various other committees. Only members are eligible to participate, only members have a voice, only members can submit ideas and only members can vote whether or not to accept the contract or to engage in a work stoppage.

The non-member is taking a crap shoot with no voice in the future when they allow others to make all the decisions!

Get involved, help us negotiate from a position of strength! Our strength comes from the membership. Our strength comes from member's voices. Be heard! If you are not a member sign-up now! If you are a member sign-up a co-worker now! You deserve a contract worthy of the hard work and the skills you possess.
